

M E A D O W S L E A
ANGUS & SHEEP GENETICS

Key to figures:

MW+M+W	Overall index incorporating fertility, carcass, and wool	(higher more desirable)
DPR	Dual purpose reproduction	(higher more desirable)
DPS	Dual purpose survival	(higher more desirable)
DPG	Dual purpose growth	(higher more desirable)
DPA	Adult size	(less negative more desirable)
DPW	Wool weight	(higher more desirable)
DPD	Dag score	(higher more desirable)
EMAbv	Eye muscle area breeding value	(higher more desirable)
WWTbv	Weaning weight breeding value	(higher more desirable)
LW8bv	Autumn weight breeding value	(higher more desirable)
FD	Fat depth (mm)	(higher more desirable)
DPF	Faecal egg count	(higher more desirable)
IMF	Intramuscular fat	(higher more desirable)
