from Sunday Sept 27th

NZ BREED TRAIT LEADERS FOR MATERNAL AND FERTILITY TRAITS – WITH LONGEVITY TO 14 YRS OF AGE

These two legendary senior sires have had a profound impact on the Meadowslea herd. They have both been NZ Trait leaders for the important fertility and maternal traits of either short days to calving, short gestation length, or milk. You will find them featuring somewhere in the pedigrees of almost every bull in this catalogue, ensuring industry-leading fertility, maternal excellence, and incredible longevity.

MEADOWSLEA SPRING BULL SALE

Friday 2nd October 2026 1pm

**Online and On-Farm,
State Highway 8, 5km west of Fairlie
Online Bidding opens with
Video Release Sunday 27th Sept, 7pm**

Sale Format

The sale will be conducted as a Helmsman-style auction, meaning that all lots are for sale simultaneously. This is to allow for the participation of those in attendance, as well as those online. The sale will be hosted on our own yourbid platform and accessed through our website www.meadowslea.co.nz. Prior to the sale, all lots will be filmed and available for viewing up until sale day on the Meadowslea website.

Bulls are available for viewing in the paddock anytime – just call 027 229 9760 to arrange a time.

Registration for those in attendance will be at the on-farm office, where a copy of the conditions of sale will be posted.

Registration for those online will be through the Meadowslea website, where the conditions of sale will also be available.

Buyers will receive a buyer number as they register which will accompany each bid. Buyers registering online will receive a buyer number when they register for the sale which will automatically accompany each bid they place, whether they do so at home on their computer, or through their smart phone while in attendance. Those in attendance may also bid by writing on the supplied bidding cards and handing them in to the on-farm office staff. All live bids and all lots will be visible at all times, both online and on a big screen on-farm.

Online registration is available now and we encourage everyone to visit our website www.meadowslea.co.nz, to register, and then place practice bids on the demonstration lots on the auction page.

Online videos of each lot with accompanying commentary will be released both on our website and on facebook on Sunday Sept 27th at 7pm. This video will include footage of every bull in the

catalogue with comments and background information from the Meadowslea team and will be available for viewing right up until the conclusion of the sale.

Online bidding will be open from 7pm on Sunday Sept 27th until the conclusion of the sale.

On Oct 2nd, Sale Day, the on-farm registration and bidding will open at 11am. **Livestreaming with interactive viewing will commence at 12.30 pm** with a walk through of all the pens, with commentary from the vendors and genetic specialists. Requests to review particular bulls can be made through the web-site chat box or by telephone or text to the vendors or stock agents in attendance. This will continue throughout until the conclusion of the sale.

A live screen on the website will show all lots alongside their current prices and the buyer number of the bidder who holds that lot. On-farm attendees will be able to view on a big screen on site.

Bids will be displayed on a computer or smart phone screen in the following colours

Example:

\$2500 Displayed in **Red** denotes the Vendors reserve and indicates there has been no bid

\$3000 Displayed in **Blue** means an active bid has been received

\$3500 A new Bid has been Received within the last 2 minutes on this lot

\$3500 The holder of the leading bid will have the lot number highlighted in Green on their computer or their smart phone when logged in.

The sale will run until 2pm on Oct 2nd. After this time the sale will conclude once there has been a period of at least 2 minutes without any bid being received on any lot. If another bid is placed on any lot during the 2-minute period, then time is extended and bids can be received on all lots for a further 2 minutes. This process will be repeated until a clear 2 minutes passes without any bids on any lot at which time the sale will conclude.

Final Time will be called clearly by the commentary team who will use their discretion to ensure all bidders are satisfied.

All updates will be posted on our website, as will an up-to-date version of this document.

Rebate Purchasing Commission. 6% purchasing rebate commission will be paid to all nominated buying companies or independent agents introducing clients prior to the sale.

FOREWORD

Meadowslea Angus Stud was established in 1985 with the purchase of capital stock females from Turihaua Station, Gisborne.

The herd today comprises 550 cows run on tussock country west of Fairlie at an altitude of 1500 to 2500 feet. The cows are run entirely under commercial conditions with all heifers calving as 2-year-olds or they are culled. Strong emphasis is placed on cow fertility and ease of calving with any dry cows culled.

Selection criteria is for easy-fleshing, moderate-framed cattle with plenty of meat and adequate fat cover, that will shift and perform in the South Island hill country. Sires used are all NZ-bred, with real emphasis placed on structural soundness, longevity, and fat cover. Over the last 14 years our stud cows have grazed next door on “Berkley Downs” native tussock blocks, and this has further tested their hardiness and constitution.

Sale bulls have spent 120 days on winter feed. The yearlings have been on fodderbeet where they have gained over 1kg / day while the 2-year bulls cruised through the winter on kale. Both mobs were shifted onto grass in the second week of September.

In 2025 we again had a 98% conception rate across heifers and mixed aged cows. We believe it is the strong focus that we place on the maternal and fertility traits that is driving these outstanding results. Furthermore, the performance of our young R2-year heifers is leading the progress within the herd, and you will note that many of the bulls on offer are bred from these outstanding young cattle – either out of the 2-year heifers or bred by yearling bulls.

Strong maternal and fertility traits are the main driver of profitability in any beef herd, and they continue to be the major selection criteria in our breeding programme.

We always keep a selection of very good 2-year-old Angus bulls for this spring sale and this year is no exception, with some particularly meaty, easy-doing bulls on offer, many suited to heifer mating.

The yearlings include 24 sons and Grandsons of the \$81,000 Kincardine Rainstorme R25. These are very

exciting prospects and are all heifer mating specialists with genomically enhanced EBV's. Rainstorme has bred exceptionally well and his progeny have the potential to be game-changers for the beef cow herd in NZ. He has exceptional calving ease coupled with very strong early growth while maintaining an unmatched efficient moderate cow size that the industry requires for sustainable and profitable hill country beef production. We have catalogued some top yearlings from all our major bloodlines as well as a good selection of bulls for our Dairy clients.

Meadowslea is a closed herd. All appropriate steps are being taken to ensure biosecurity is maintained at all times for ourselves and our clients.

All bulls tested clear and vaccinated for BVD. Scrotal contents and prepuce palpated with no abnormalities found.

We wish you well with your purchases and as always stand behind them 100%.

Deferred payment option is available – feel free to contact the vendors to discuss.

David and George Giddings

Disclaimer:

The BREEDPLAN Estimated Breeding Values (EBVs) contained within this sale catalogue were compiled by the Agricultural Business Research Institute (ABRI) from the data supplied by breeders. Neither Angus NZ nor ABRI oversee or audit the collection of this data.

Structural Assessment

The two-year bulls have undergone independent structural assessment by Bill Austin using the Australasian Beef Class system.

Results will be published online at
www.meadowslea.co.nz

21st September 2026

On the 21st September 2026

I palpated the scrotal contents and prepuce of the bulls.

There were no abnormalities found.

The scrotal circumferences were measured and recorded.

Comments: We kick off this 2026 Spring Catalogue with a cracking son of Turihaua Tornado. Thick, deep, very correct and well balanced with terrific foot and bone to him. He was used heavily in the stud as a yearling to follow up AI and he has ideal figures for heifer mating with low birthweight, strong calving ease, big fats and fertility. Dam N236 bred sale bulls sold to Mark Nicholson and John Small, as well as keeper sire T234. Grand-dam L293 is the mother of stud sire Q223, sold to Riverlands J Angus. Note a splash of white on the pizzle.

Comments: Another Tornado son, this time going back to the \$100,000 Rangatira 13-38 on the dam side. Moderate birthweight with calving ease, strong growth, big scrotal in the top 10% of the breed, and tonnes of muscle give him a very impressive index. Body condition score is in the top 5% of the breed. Dam has bred a previous sale bull sold to Mark Evans.

Comments: One of these outstanding Jupiter sons, this time out of a cow by Panther going back to Crump. Mother S172 is the dam of our 2025 keeper bull U181. Grand-dam H107 was an F540 daughter who bred Meadowslea Mountain Man sold to Kayjay Angus for \$92,500. Some pedigree this! Lots of growth here, good muscle, exceptional easy fleshing fats with a great skin and coat and body condition RBV in the top 15%. An unbreakable type suitable for adult cows.

Comments: More of the Jupiter bloodline, with a T202 son this time out of an F540 daughter who was sold as a 10-year-old to Mackenzie Brown this year. She bred on, her grandson R572 being sold at lot 1 to Red Oak Stud for \$19,500 in 2022 and his sons feature in their catalogue. Pedigree goes back to Goldwyn and another shot of the A300 cow. Lovely easy fleshing bull once again showing with his top fats, with exceptional fertility, a very good IMF scan, and body condition RBV in the top 10%. Another sound, blocky, unbreakable Jupiter type suited to adult cows.

Comments: Very good moderate framed son of Q250, out of a cow by Q178, which doubles up on a very good hindquarter. Wide across the top, clean shoulders, great length, and lots of muscle and fat with an outstanding self-replacing index. Moderate birthweight and short gestation with strong calving ease and exceptional fertility with very good condition score RBV as well Very sound, a real prospect for heifers or cows!

Comments: Another very thick, deep bodied, easy doing bull with terrific fleshing and a great hindquarter. A grandson of Q178 who is leaving so much strength and quality. Double bred to F540 with a shot of Crump coming through from Panther. Mother bred a top bull sold to Neil Wilcox in the 2024 bull sale. Clean shoulders and low birthweight for heifer mating makes him a really versatile option. Thick, deep, and square, throws back to Panther's easy fleshing with big fats and some IMF.

Comments: A direct Panther son here with the same thickness, depth, and terrific fleshing we get on all his descendants. Incredible short days to calving and big fats mean his daughters will get the job done. Clean shoulders and moderate birthweight make him suitable for both heifers and cows, a very good pick!

Comments: A similar type of bull, again by Panther, with top calving ease, short gestation and low birthweight making him ideal for heifers. Plenty of growth makes him a top option to mate adult cows too. Exceptional easy-doing fleshing, great rib and rump fats and a top body condition RBV. A good thick square type.

Comments: A third Panther son in a row, this time out of a cow by M564 so has a double up of muscle. Grandmother bred a bull sold to Hawkdun Pastoral back in 2021. Low birthweight with plenty of growth again and the trademark rib and rump fats Panther leaves indicate great doability. IMF in the top 13% of the breed with a big EMA too. Had been on our short list to use as a yearling. Thick, deep, and square once again.

Comments: Very well-bred bull here by the high performing Kayjay Meatpack, out of a cow by the well-known Lazarus, and going back to Achiever of Kenhardt. Big scopey bull with terrific topline, great length, and exceptional growth figures. Mother has had previous sons sold to Raymond Gunn and Harvey Hutchison. Scanned well for fat and IMF. Real volume and capacity with a super quiet temperament. Worth a good look, suitable to mate adult cows and will put some scale into your cattle.

Comments: Another bull with some real scale about him. A grandson of N166 who bred Mountain Man, and going back to L226 so double bred to F540 and Crump with some of our greatest ever cows in the background. Moderate birthweight with lovely length, very easy doing type with plenty of fleshing, and the same volume and capacity this pen all have. Big fats and a top IMF scan.

Comments: Nicely balanced bull here with a lovely topline, clean shoulders. Like all the T202s he is very sound on the ground. Mother has had sons sold to Bendigo Station and Bevan Wilson. Exceptional fertility with both scrotal size and short days to calving plus impressive IMF. Strong and upstanding.

Comments: A son of Q250 with really good heifer mating figures once again. Lovely soft fleshing bull with all the EMA we expect of Q250 and massive fats. Mother bred stud sire P599 sold to Kaiwara Angus for \$18,500, as well as a good son to Brian Butler. She also has a son near the top of the yearling catalogue as well at lot 41. Thick, deep, square, a great heifer or cow mating option.

Comments: The only Rainstorme son in the 2-year-old bulls and he is a cracker. Goes back to M564, Goldwyn, Crump, and F540. Grandmother bred a bull sold to Bevan Wilson last year. Incredible figures for heifer mating with lovely calving ease, low birthweight, plenty of growth, huge scrotal size, lots of muscle, and exceptional IMF. Lovely easy fleshing bull with an exceptional hindquarter and a great example of the Rainstorme progeny.

Comments: This is another low birthweight, clean shouldered heifer mating option. Out of a cow by the \$106,000 Kaharau Olympic who was transferred to Denali Angus in 2025. Sire S341 was transferred to Mt Possession Angus in 2023. Exceptional fats, both rib and rump, and the highest IMF EBV of his year. A lot to like on this bull with terrific carcase data.

Comments: Very good Q250 son later in the sale with super figures for heifer mating. Out of one of our K904 cows who have bred exceptionally well for us. She goes further back to Crump, bred a good bull sold to Neil Wilcox in 2020, and was sold as a 10-year-old to Steven Dennis this year. Thick, deep, and square with terrific quality about him. Strong head, bone, and feet with plenty of muscle. Fertility, rib and rump fats are at the very top of the job and IMF is strong too. A really good pick for both cows and heifers.

Comments: A cracking Rainstorme son to open the offering, showing all the attributes we've come to expect of that bloodline. Has a couple of shots of Braveheart in the pedigree as well as the great cow G922 the grandmother of Mountain Man. Lots of calving ease, moderate birthweight, plenty of growth, huge scrotal and massive muscle combine for top indexes. Lovely balance and style. Out of a 2-year heifer himself so proven heifer calving background. A bull we would have kept and used in the stud ourselves except for a splash of white on the pizzle.

Comments: Very exciting pedigree here, A P700 grandson out of a cow by Taimate Roy, and another heifers calf. Crump, F540, and Highlander of Stern are further back. Dam has bred well with daughters transferred to Finnis Farm Angus in 2023 and 2026, and a son sold to Bendigo. She was sold as a 10-year-old earlier this year. Plenty of calving ease, moderate birthweight, and strong growth as well. Big scrotal and a top backend. Scanned exceptionally well with a massive EMA and good fats. Balance, style, and a top prospect.

Comments: Beautifully balanced bull with a lovely top on him, clean shoulders, and real style. Sire T276 was sold at lot 2 to Rocky Point Station in 2024. Lots of potential here, this is a bull that is really going to grow out. Moderate birthweight, strong fertility and good muscle with nice moderate cow weight EBV. Very well put together, sound, clean cut heifer mating option.

Comments: Nicely balanced son of Q250, with good calving ease and low birthweight. Mother bred stud bull P599 who is at Kaiwara Angus, with a son sold to Brian Butler and another in the 2-year-old catalogue at lot 25. Huge muscle, lots of fat, top fertility and some IMF. Easy doing well balanced bull.

Comments: Q250 again, this time back to Lazarus. Sire of dam R572 was sold to Red Oak for \$19,500 in 2022. Nice moderate birthweight, plenty of calving ease, incredible EMA, massive fats and strong fertility too. Another very thick, deep, square type with an impressive index.

Comments: Another classic Rainstorme son here. Nice top, good calving ease, short gestation, low birthweight, plenty of muscle, big fats, top fertility and a very good index. Very similarly bred to Meadowslea Thunderstorm being out of a K018 cow, and also goes back to Crump. Grand-dam was sold to Pa Hill Angus as a 10-year-old after breeding several good sale bulls.

Comments: A son of R818 who is breeding so well, and out of an F540 daughter going back to Goldwyn. Mother bred a top bull sold to David Andrew this year for \$17,000. Very short gestation, moderate birthweight and possibly the highest top end growth in the catalogue! Strong fertility and big fats with IMF as well, and ideal for either heifers or adult cows.

Comments: A classic Rainstorme shape with low birthweight and top calving ease showing up in those beautiful clean shoulders. Has a lovely topline, width across the loin and big EMA, IMF, and fats. Lovely balance, style, and a very strong hindquarter. Ideal heifer mating figures once again. Mother had a daughter sold to Jade Park Angus in Australia and the grandmother bred a bull to Ben McLaughlan.

Comments: Very good son of Turihaua Tornado showing the thickness, depth, and muscling he leaves every time. Goes back to Meat Machine, K018 and Goldwyn. Mother had a bull sold to Lamb Hill last year and a top daughter sold to Westfield Angus for \$5,200 in 2022. Grandmother was transferred to Pa Hill Angus this year after breeding sons sold to Hawkdun and Flagstaff. Good strong growth and big fats and exceptionally good structure.

Comments: One of the first of the Rainstorme grandsons coming through. Sire U130 was used as a yearling and sold to Greg Hand. Goes back to Crump and Meat Machine on the dam side as well as the great G922 cow. Mother has bred incredibly well including lot 1 in our June bull sale sold to Rocky Point Station for \$20,000, U366 sold to Glenmore Station last year for \$17,000, and other bulls to Longslip Station and Waewaepa. Moderate birthweight, with some growth, strong fertility, and good fats. Thick deep body, a strong hindquarter, depth of rib and great chunky type.

Comments: One of only a few direct Jupiter sons we have put in. Goes back to Crump and Lazarus. Grandmother sold as a 10-year-old to Fiordland Angus this year with previous sons sold to Verity Farms and Grays Hills. Nice low birthweight bull followed by strong growth with massive fats and strong scrotal. Width, thickness, and plenty of depth to him with a top body condition score RBV.

Comments: Another Rainstorme grandson, out of a cow by Q250 with some Braveheart, Crump, and F540 in there which is such a very good cross. Mother bred V152 the year before who was used in the stud then sold to Bevan Wilson. Super calving ease, super low birthweight, strong growth, massive milk, muscle, and fat. A great spread of data right across the page.

Comments: A very well-balanced bull by P700 out of a cow by Turihaui Delta who was by Lazarus. The mother also bred a bull used in the stud last year, this time selling to Lamb Hill Station. Lovely topline, very strong hindquarter, moderate birthweight with clean shoulders ensuring easy calving. Very strong fats, muscle, and a massive IMF figure - a lot to like about this bull!

Comments: A P700 son with a nice topline and clean shoulders. Out of a 2-year heifer who goes back to the \$32,000 Woodbank 7017 and Red Oak 378. Another low birthweight bull with massive scrotal, EMA, fats and terrific IMF! An upstanding scopey type.

Purchaser:	Price: \$
-------------------	------------------

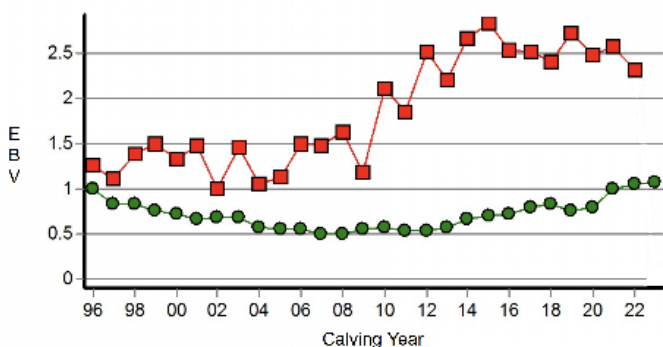

The development of the “Meadowslea Hill Country Type”

has been the result of 25 years of selecting animals that perform the best in our hill country environment. Cows that can winter easily on the hill without supplements, stay in good order, calve easily and get back in calf early every year for 10 years has been the focus of our breeding programme.

Ultra-sound scanning has confirmed to us that these easy doing cattle have higher levels of Rib and Rump fat. Science has now recognised that these higher fat levels result in heifers getting in calf earlier with higher conception rates. These higher fat levels also result in increased fertility in the whole herd with earlier rebreeding and less dry cows.

These great positive fat EBV's in the Meadowslea herd have come about simply by selecting animals that suit the Hill Country environment.

Carcase Rib Fat (mm)

- Meadowslea herd
- Australasian herd average

Graph showing improvement in fat EBVs at Meadowslea while running the herd on hill country, compared with Australasian average. From TransTasman Angus Cattle Evaluation, April 2022.

The average rib fat EBVs of the bulls in this catalogue ranks in the top 25% of the breed in NZ.

Fertility - The Most Important Economic Trait

David Giddings of Meadowslea Angus in Fairlie says if profit is the goal, then fertility is by far the most important trait cow-calf producers should be selecting for. Studies have shown time and time again that reproductive traits are twice as important as growth traits, which are in turn, twice as important as carcass traits.

Ironically, the majority of the beef industry has been selecting almost exclusively for growth and carcass traits for the last 40-plus years – all at the expense of reproduction.

Because the heritability of growth and carcass traits is very high, it is relatively easy to make changes in those traits. Unfortunately, many breeders in the beef industry mistakenly believe that when it comes to growth and carcass traits, more and bigger are always better. They forget the optimum level for most traits is almost never the same as the maximum level.

IT IS ACTUALLY VERY EASY TO SELECT FOR FERTILITY.

Fertility is more a function of fleshing ability than of anything else – and fleshing ability is more a function of low maintenance requirements than of anything else.

Reproduction cannot take place until maintenance requirements have been met and cows are storing up energy reserves in the form of fat. Since fleshing ability and maintenance requirements are very heritable, fertility is therefore very heritable.

David says bull buyers should look at the key fertility trait EBV's first.

Scrotal Size (SS) – which indicates early onset of puberty on heifer progeny and early rebreeding throughout her lifetime.

Days to Calving (DTC) – this is the measure of the number of days from the day the bull is let in with the mob until the cow calves – the shorter the better over her lifetime production, indicating a higher likelihood of getting in calf in the first cycle.

Rib Fat - positive rib fats are a measure of fleshing and have a major effect on fertility

Body Condition Score (BCS) – this new Breeding Value, introduced by Angus NZ this year, measures the body condition score of the cow at weaning. Established Meadowslea sires are coming out right at the top of the breed on this assessment. Meadowslea F540, Meadowslea Meat Machine and Turihaua Crump all rank in the top 2% in NZ for BCS,

Self-Replacing Index (SRI) – An Angus NZ index generated by compiling data from many of the above traits, particularly fertility but also including moderate cow size and calving ease.

While many in the NZ beef industry has been selecting almost exclusively for growth and carcass traits, Meadowslea Angus have spent the last 40 years selecting for efficient, low-maintenance cattle that can do the most for the least – the kind that can produce and reproduce with minimum inputs in many different environments.

David says “if you think of the feed cost savings from these efficient moderate framed cows, coupled with the extra numbers of calves per herd you are able to sell or fatten, as well as the smaller number of heifers needed for replacements, when you have fewer dry cows – then it’s just a no-brainer decision for your bull selection”

If you don’t pamper your cows, then you shouldn’t buy bulls from studs that pamper theirs. If you buy bulls from studs that treat their livestock in a way similar to, or tougher than, your management style, there will not be any negative surprises. Bulls can gain weight during breeding, cows can stay in good condition with limited inputs, and as a fortunate side effect you get sappy, easy fleshing calves that prime up early, and easily on grass, and hit their grades quicker.

If fertility is important to you, then you shouldn’t purchase bulls that were bred with a focus on growth and carcass traits. Instead, you should purchase bulls that were bred for low-maintenance requirements and fleshing ability.

Material adapted from Pharo Cattle Company, a major cattle breeder with operations across 12 states in the USA with a focus on providing genetics for profitable cow-calf producers.

EXCITING NEW SIRE LINES

Atahua 22-59 We Purchased this bull at the final Atahua bull sale in 2024 after being attracted to his exceptional depth of body, and massive eye muscle area. His Low birth weight, good calving ease, short gestation and exceptional scrotal, have made his sons great heifer mating options. His first yearling sons on offer are impressive types

ON OFFER SPRING 2026

Tangihau T613 Tangihau T613 was purchased at the record-breaking 2024 Tangihau bull sale. For us, he was the standout bull in the offering, with exceptional muscle and soundness in a moderate frame. Sired by the high performing Shian 18-563, who bred all the high-priced Tangihau stud bulls in 2023, his pedigree features the very successful cross of the Reality and Braveheart bloodlines. T613 has very strong muscle that is matched with an exceptional hindquarter and immaculate feet and leg structure. He has some exciting yearling sons on offer suitable for heifer mating

Comments: A good quality Rainstorme grandson with lovely clean shoulders, quality head, nice balance and style about him. Strong calving ease, short gestation and low birthweight with top fertility and terrific fats! Body condition score in the top 12%. Out of a 2-year heifer by Q178 going back to F540 so a top pedigree. Potential to grow into a very good bull.

Comments: A son of the very sound T202, going back to Reality and F540 along the bottom line. Mother bred a good bull sold to Nat Small and the grandmother bred V547, used in the stud and sold to Alan Oldham at \$15,000 this year. Nice, upstanding, well-balanced bull with strong fats and top body condition score. Great foot and bone about him, very correct type with very clean shoulders and top structure.

Comments: Rainstorme grandson showing the same lovely clean shoulders and beautiful balance. Crump, Braveheart, and a couple of shots of F540 in the pedigree. Mother has bred bulls sold to Ash Kinaston and Waewaepa, and also has a son in the 2-year-old offering at lot 19. Grand-dam bred 2 bulls sold to Brian Butler and one to Mt Gerald. Top calving ease, short gestation, and low birthweight with big fats and some IMF. Great topline and strong hindquarter. These Rainstorme grandsons are every bit as good as the direct progeny - he will develop into a very good bull!

Comments: Strong, powerful son of R646. Goes back to L226 and Meat Machine. Mother has bred bulls sold to Giles Foley and Josh Jamieson. Grandmother bred a top bull sold to Island Bay in 2023 and was sold as a 10-year-old last year to Denali Angus. Very well made with clean shoulders, a strong topline, good head and bone. Moderate in the birthweight with big growth and strong scrotal indicating early maturity. Quality bull throughout.

Comments: First of the Tangihau sons offered, out of a K703 daughter going back to Meat Machine, Crump, and F540. Mother has had a son sold to Greg Hand and grandmother has had 5 sons presented for sale. Incredible short gestation in the top 1%, good calving ease, low birthweight, growth, fertility and muscle. Compact type, deep in the rib, strong across the loin and with terrific depth. Good strong head on him.

Comments: First son of T130, who we used to follow up AI that year and who has bred well. Goes back to Q178, F540, Crump, and Goldwyn. Mother has had sons go to Waewaepa and Belmont Station while grandmother bred a top bull S513 sold to Peak Hill. Nicely balanced bull with clean shoulders, a good topline, and very good low birthweight - a great heifer option. Top calving ease, fertility, fats, and an impressive index.

Comments: Top breeding here - the only son offered by the \$92,500 Meadowslea Mountain Man, and out of a cow by Lazarus with Achiever of Kenhardt, Glanworth 0816, Crump, F540 and 3 shots of Hingaia 469. Grand-dam was sold to Red Oak Angus as a 10-year-old for \$5000. Real grunt and power about this fellow with the sire's topline, length, thickness, and depth. This is a very good prospect and worth a good look. Low birthweight, incredible calving ease and short gestation - make sure you mark him in your catalogue!

Comments: Another Rainstorme grandson, going back to the \$106,000 Kaharau Olympic. F540, Crump, and Meat Machine also feature. Real quality here with presence and pullup. Clean shoulders, positive calving ease, and low birthweight make another great heifer mating option. Out of a 2-year heifer himself.

Comments: A grandson of Turihaua Avenger with a bit more scope and scale. Mother goes back to Goldwyn and Crump and has bred bulls to Mark Nicholson, John Small, and Ray Walkler. Short days to calving, big EMA, fats, and IMF. Very strong hindquarter, lovely clean shoulder and pullup to him. Well put together and will grow into a well-balanced adult bull.

Comments: Upstanding son of Woodbank Dataset. Sire of dam S402 was a Panther son sold at lot 3 to Corey Roulston. Goes back to G1000 and F540 on the bottom line. Dam was a 2-year heifer and grand-dam bred a top bull sold to John Small this year. Clean shoulders, low birthweight, exceptional growth, fats, and a bull that looks like he will really grow into something. Great pullup, neck extension, and style about him.

Comments: A well-bred Rainstorme grandson out of an N166 cow so one of the best crosses around. Goes back to Braveheart and Kaharau 558. Grandam J665 bred good bulls to David Baker and Hamish Cottle and was later sold to Jade Park Angus in Australia to be flushed for embryos. Lots of calving ease, moderate birthweight, lovely clean shoulders and depth of body. Massive fats and a powerful SRI. Well balanced and another top heifer mating option.

Comments: A cracking bull to start this last paddock of bulls. By U522 who was used as a yearling and sold to Waewaepa last year, and out of a Jupiter 2-year heifer - these are some of the best young cows in the herd. Goes further back to Crump. Grand-dam bred top bulls to Greg Hand and Will Jamieson. Muscle, IMF, strong fertility data and low birthweight for safe heifer mating. Thick and wide with a terrific hindquarter. A top bull worth close inspection.

Comments: By T130 again, and another top heifer mating option with clean shoulders, good outlook, nice topline, and balance. Double bred to F540 and Meat Machine. Mother bred S116, used in the stud and then sold to Island Bay at lot 1 in 2023. Grandmother has had sons sold to Greg Hand, Arthur Innes, and David Pattullo. Easy doing type of bull with big fats, top calving ease and low birthweight.

Comments: A Rainstorme grandson with nice pullup and presence about him, with Glanworth 0816 and Red Oak 378 in there. Out of a good old cow who was sold as a 10-year-old in April. Once again super figures for heifer mating with some growth as well. Good hindquarter, deep, thick, and square. Potential to go over heifers or cows.

Comments: T130 son out of a Goldwyn cow this time and back to F540. Lot 17 in the 2-year-old catalogue is out of the same cow. Grandmother has bred bulls to Flagstaff Station and The Muzzle before being sold as a 10-year-old. Another low birthweight, calving ease bull with great head and bone, a nice topline, real thickness and depth to him. Fertility and muscle are strong and he has some IMF coming from Goldwyn.

Comments: A son of Tangihau, out of a cow by Rangatira, and back to Red Oak NZ14. Has a bit of scale and scope about him. Lovely clean shoulders, very good topline, potential in this bull with a great heifer mating option. Low birthweight and strong fats with nice moderate cow size. Easy fleshing bull to have a good look at. Good foot and bone.

FMG
Advice & Insurance

BULL-PROOF YOUR ASSETS AGAINST RURAL THEFT.

Theft and burglaries occur more often than you think, and the number of theft claims is increasing.

Every year FMG supports over 1,000 families impacted by theft and burglary. Alarming, 1 in 5 clients at rural addresses have been targeted more than once in the same year!

We think now's the time to put a lock on that trend. We have teamed up with NZ Police to create a Rural Crime Prevention Guide to help prevent theft and burglaries at your rural property – find out more at fmg.co.nz/rural-theft

We're here for the good of the country.

FMG Premier Bull Sale Insurance Form

What is FMG Premier Bull Insurance?

On receiving a completed FMG Premier Bull Sale Insurance form from an existing FMG client, FMG provides insurance cover for bulls including theft, death caused by certain accidents, injury, disease, illness or humane destruction and permanent infertility, provided the bull's purchase price does not exceed \$50,000 +GST. Please contact an FMG representative if you are not an FMG client, or you purchased a bull for over \$50,000+GST.

What is the length of cover?

Your specified bull(s) can be insured for up to 12 months on FMG Premier Bull Sale Insurance.

What are the benefits?

✓ <i>Infertility</i>	Cover if your specified bull has to be intentionally slaughtered due to permanent infertility caused by certain accidents, disease, or illness.
✓ <i>Theft or death</i>	Cover for your specified bull for theft or death caused by certain accidents, disease, injury, or illness (including while in transit anywhere in New Zealand).
✓ <i>Vet costs</i>	Cover up to \$500 for treatment of your specified bull to prevent death.

What will FMG pay?

FMG will pay the fair market value of your specified bull, less any amount you receive for the sale of the carcass, up to the amount shown on the insurance certificate.

Apply

Please fill in this form as soon as you have purchased your new bull(s) and hand it to your FMG representative.
This form **MUST** be fully completed for Premier Bull Sale Insurance.
